### 1 NICHOLS LIBRARY

***Cultural Identity***  
by Gio Arellano

Giovanni Arellano, known as Fiendsco, is a talented Mexican American artist inspired by his father's teachings at age five. He specializes in spray painting and screen printing. In 2022, he worked on the Alebrijes project and painted windows for the "Year of the Alebrijes" event. In 2023, he created the Alebrijes x Warhol installation and crafted a chair for the "Seat at the Table" project. As Fiendsco, he continues to excel in art and design.

Gio's art, inspired by Latin American flora, fauna, and cultural heritage, emphasizes biodiversity and conservation. His bold colors capture the vibrancy of Latin America, celebrating its natural world and promoting environmental awareness.
